## CAREER OBJECTIVE

I want to build upon my educational career, and work for an organization that gives me the platform to showcase, and more importantly, enhance my skills as a technology professional. I look forward to the challenges of the workplace, and to working with my peers and colleagues to bring value to the organization that I work for.

## EXPERIENCE

### **Techloyce Ltd, Lahore — Python Developer**

JAN 2020 - PRESENT

- As a full time developer in python I am currently working on **odoo** framework to provide **ERP** and **CRM** along with the ability to have integrations and customization with other management systems.
- I have develop **Zendesk Support** Integration module in Odoo Helpdesk from scratch. Add customizations as per client's requirements.
- I have worked on other integrations and customizations like **Avalara, Slack, Quickbooks**.

### **Mezino Technologies, Lahore — Python Developer**

JULY 2018 - DEC 2019

- My role is to search and implement the best solution in given time.
- I worked with **django, flask, postgres, superset**, open source tools/codes.
- Explore APIs, libraries to implement solutions for multiple cameras including **facial recognition, intel realsense** along **up-board**.
- Implements a feature show our clients network over the Map using Map APIs, **flask, postgresql, pgadmin** along with multiple open source tools like **leaflet, turf.js, Open Street Map** etc.
- Work on **DRF** to implement an API providing weekly data to our client.
- **Integration script** to periodically get data from API and put it in the client's database.
